

The Diocese of Leicester is seeking to appoint a:

Data Analyst (0.6FTE)

The Data analyst will be responsible for supporting the implementation of our recently developed and agreed diocesan strategy through the synthesis of multiple data points. They will work closely with other team members to analyse complex demographic, church-based financial and other data in order to enable informed, strategic decisions. In particular they will be collating data from across the diocesan ecosystem in a way that is accessible and complements existing processes.

The purpose of this role is to:

- **Support the implementation of our recently developed and newly adopted diocesan strategy through bringing together varied and complex data sets.**
- **Synthesize different types of data (church based, financial, census, demographic) to enable informed decision making.**
- **In collaboration with other team members, help design and set up systems and processes for the monitoring of the diocesan strategy.**

For an informal conversation about this role, please contact Luke Fogg (Strategy Development Project Manager) on 07749 124 351 or via Luke.Fogg@LeicesterCofE.org
(Please note that Luke will be on leave between Christmas and New Year)

More information about the Diocese of Leicester is available on our website: www.leicester.anglican.org

This is an employed role, for a fixed term of 12 months, with a salary range of £24,000-£27,000 pro rata, depending on experience.

This job is externally funded by a grant from the national Church of England.

Applications:
